

Northwest Integrated Ocean Observing System (IOOS) Industry Workshop August 11, 2005

Sponsored By:
The Northwest Association of Networked Ocean Observing Systems
(NANOOS)

A Workshop to Exchange Information on the Needs and Benefits of Improved Information for Northwest Ocean and Coastal Operations

NANOOS is the Pacific Northwest's private sector focal point for the federal government's initiative (IOOS) to build and operate a nationwide network of offshore and onshore sensors integrated into an information system you can use.

Who Should Attend:

Companies and organizations in the region involved in marine transportation, fishing, coastal and offshore operations, system suppliers, sensor technology and engineering professionals, and other marine stakeholders who use and create ocean and coastal information.

When / Where:

August 11, 2005 8:00 AM – 4:30 PM PDT

Museum of Flight, View Lounge: 9404 E Marginal Way South, Seattle, Washington
Space is Limited. To attend, please register by 25 July.

Registration will begin on-line on 11 July at: www.nanoos.org
